ABOUT SNAPSHOOT

### 제품 공급을 넘어, 현장에 맞는 해결책으로

스냅슛은 산업현장의 작업 환경과 요구 조건을 바탕으로
적합한 제품과 시스템을 제안합니다. 현장 실사를 통해 설치 조건을 확인하고,
공급부터 시공·설치 및 사용 교육까지 필요한 과정을 함께합니다.

Rodenticide Bait

# Havoc® Rodenticide Bait

***Product Numbers: 116395, 116396, 116398***

## *Key Features & Benefits*

**Active Ingredient: Brodifacoum**

- Acute, single-dose rodenticide containing the active ingredient, 0.005% Brodifacoum
- Kills House Mice, Norway Rats, and Roof Rats
- Rodents may consume a lethal dose in a single-night's feeding, with the first dead rodents appearing four or five days after feeding begins
- Very attractive for rodent control when there is a lot of feed sources around
- Only 1 to 2 tablespoon amounts will control rodents in an 8 x 12 foot space
- May be used in and around buildings and structures and inside burrows
- Use as a supplement to NEOGEN's current Rotational Baiting Strategy during periods of heavy rodent infestation

### Product Function

The food-grade ingredients in Havoc Rodenticide Bait provide superior palatability to deliver brodifacoum. This meal bait product contains food-grade ingredients, seeds and grains, which provide rodents a variety of textures and flavors. Kills Warfarin-resistant Norway Rats and House Mice.

### Selection of Treatment Areas

Determine areas where rats and/or mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in or beside burrows, in corners and concealed places between floors and walls, or in locations where rodents or their signs have been observed. Remove as much food as possible.

### Follow-up

Replace contaminated or spoiled bait immediately. Using waterproof gloves collect and dispose of all dead, exposed animals and leftover bait properly. To discourage re-infestation, limit sources of rodent food, water and harborage as much as possible. If re-infestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

*Please see this product's entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on the product label. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.*
